

The word “tetelestai” means “it is finished.”

The work of the breast cancer tetelestai mission asks four important questions:

- What if it is true that faith the size of a mustard seed is more powerful than human expectation?
- What if it is true that people perish where there is no vision?
- What if it is true that one of our greatest gifts to heal our lives and to heal our planet is the power of prayer?
- What if Faith Believers from around the world were to pray for the end of breast cancer, how powerful would that be?

Join us on the “breast cancer Tetelestai Facebook Group” as we share the power of speaking God’s promises for healing into our daily lives and for the end of breast cancer on every continent on the planet.
